## WORK EXPERIENCE

## EDUCATION

### Najot Ta'lim

Foundation,Full-Stact(Node.js & Vue.js) - 5 GPA

2022 - 2024

## PROJECT

### Rent Car

June - 2023

- An Express.js project for browsing and renting cars online. It includes car listings, user profiles, and rental management.

### Online Market

August - 2023

- An e-commerce platform built with Express.js for buying and selling products. It supports product management, order processing, and user authentication.

### ReciepHub

September - 2024

- A NestJS application for sharing and discovering recipes. It allows users to create, update, and search for recipes easily.

### Uzbek-Tour

October - 2024

- A tourism platform built with NestJS to showcase and book tours in Uzbekistan. It features tour packages and integrated booking functionality.

### Feane

September - 2024

- A restaurant management system using NestJS to handle orders and reservations. It offers real-time updates for both staff and customers.

### Market-Place

August - 2024

- An online marketplace developed in Express.js for buying and selling goods. It includes features like product listing, shopping carts, and payment processing.
